

50*150mm flat oval tube combines with 60*120mm oval tube, makes the machines mature and elegant.

Design the machines according to the international advanced concept and improve on the original

basis. Resistance remains steady during the entire range of motion, making the movement exceptionally fluid.

Pure steel weight plate enhances the product durability.

Training counting & training time recodes make the movement more scientific and humanized.

Full closed PVC covers with one time contoured to keep user safe, increases the attraction and underlines the high quality.

Unique separated movement allows the user practice single arm, highlights the details and humanization of the products.

Aluminum alloy pulley with $\Phi 106.2\text{mm}$, improve the durability and keep movement smoothly,

it is easy to maintain.

The handle adopts TPV material, never damage and improves the durability.

Imported powder of painting, double rust clean, double lines cushion showing fashion.

Seat and cushions can be adjusted together, keep user's hamstring muscles contracted as much as possible.

Button release range adjustment function can adjust the starting angle to users to be in and out of the machine.

The legs shaft is fixed so that adjustments as the traditional sitting leg curl and extension is not needed. and the possibility of excessive stretching the knee is minimized.

Adjustable seats, can adapt to different users' height.

Specifications

DIM: (L) 1480*(W) 1200*(H) 1600mm

N. W. : 270KG

Weight stack:

Standard: 80KG

Max: 150KG

Muscles trained: Quadriceps
