

Based on international advanced design concept, upgrade the structure, adapt to the needs of various users.

Adopt international advanced production facilities—laser cutting machines, automatic welding

robots, CNC facilities etc, to achieve top standard tooling operations.

Combine chemical treatment process and electrostatic spraying process, ensure perfect appearance.

Main tube thickness: 3mm, combine oval tube thickness: 50*100mm

Equipped with heavy commercial linear bearings to ensure sliding frame moving smoothly.

45 degrees declination angle can reduce the pressure on knees, with convenient handles, right-angle head pad and oversized pedal.

Specifications

DIM: (L)2400*(W)1600*(H)1520mm

N. W. : 165KG
